
T3 PLUS

mobile and portable

Operator Facing

Customer Facing

The T3 Plus is a 10.1" Tablet PC, powered by Android or Windows 10 to provide portability and mobility in many vertical applications.

The T3 Plus' mounting option includes a desktop base or a wallmount kit. With each mounting, the T3 Plus can be detached to provide some mobility.

The T3 Plus offers expandability via its WiFi, Bluetooth, USB, Serial, and Ethernet ports. Additionally, its versatile design allows several integrated device options, such as:

- magnetic stripe reader for payment processing or operator identification
- smart card reader (EMV) for payment processing
- biometric reader for operator or visitor identification
- RFID reader for employee identification
- 2D imager for inventory processing, price checker, or product scanning

The intelligent 2D imager's design allows the T3 Plus to be carried around as an inventory or price checker. When the T3 Plus is docked on the base, the 2D imager can be rotated to scan items for retail transactions.

The T3 Plus is ideal for retail point of sales station, queue busting, price checker, mobile customer service, time clock, or mobile documentation.

Mobility

Wallmount

Pioneer Solution Inc. designs and manufactures a complete line of industry specific all in one computers, touch screen monitors, kiosks, and tablets. Founded in 1994 and based in California, Pioneer Solution Inc. manufactures its solutions from start to finish in the USA which are deployed in Retail, Hospitality, Factory Automation, Gaming, and Healthcare environments. Pioneer Solution Inc. has built an exceptional reputation with its customers and solution partners for superior flexibility and responsiveness to customer needs including short lead times, long product life cycles (minimum of 5 years), easy customization, and quick turnaround. Pioneer Solution Inc. sells through qualified technology resellers throughout the US and globally.

Specifications

Display Size	10.1" with Multitouch
